

Meet the Bloom Teacher of the Year

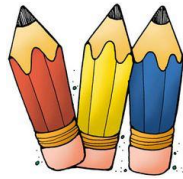

Sra. Pursley

About Me

Hi! My name is Martha Pursley and I am a dual language Kindergarten teacher. I have been a teacher for 30 years. During these years, I have learned about other cultures and other languages besides Spanish and English. I have a bachelors and Master's degree in elementary education. I have two endorsements: early childhood and bilingual education. I have taught bilingual, PACE, ELD, regular education, and now two-way dual language. I enjoy teaching the curriculum in Spanish. I believe that in order to learn teaching has to be meaningful. So I use a lot of visuals and realia to create a learning environment.

Things I enjoy

I enjoy a cup of hot Mexican chocolate with a pan de huevo.

I also enjoy writing and creating little books for children to read and learn Spanish. I'm an avid traveler and was fascinated by other cultures around the world. It's been my greatest pleasure to work with children from different cultures and various places around the world. I've been enriched by teaching children from many parts of the world. I used my relationship with my students to learn some of their language and used that to instruct future children and build a bridge to their parents who often times couldn't speak English.
